Dr. Vatsa Dental & Implant Academy

THE ACADEMY EXPERIENCE

The Academy provides a clinically immersive learning environment focused on translating academic knowledge into practical competence through real-patient exposure, supervised procedures, live demonstrations, case-based learning, evidence-based protocols and expert mentorship.

LIVE REAL-PATIENT HANDS-ON CLINICAL TRAINING

- Real-patient clinical exposure
- Supervised hands-on clinical procedures
- Live clinical demonstrations
- Complex & challenging clinical case exposure
- Case selection & clinical assessment
- Comprehensive treatment planning
- Step-by-step clinical protocols
- Evidence-based clinical decision-making
- Case-based learning & discussion
- Individualised clinical mentorship
- Multidisciplinary clinical exposure
- Clinical precision, patient safety & predictable outcomes

RESEARCH & ACADEMIC CLINICAL LEARNING

- Evidence-based clinical education
- Clinical case evaluation
- Case-based academic discussions
- Contemporary treatment protocols
- Research-oriented learning
- Critical clinical decision-making
- Multidisciplinary academic interaction
- Continuous professional development

NATIONAL & INTERNATIONAL CLINICAL LEARNING

The Academy welcomes practising dentists from across India and international destinations, creating a diverse clinical and academic learning environment. Clinicians from different professional backgrounds and geographic regions can interact, exchange knowledge and gain exposure to contemporary clinical approaches.

ACADEMIC • CLINICAL • HANDS-ON • RESEARCH • GLOBAL

FLEXIBLE CLINICAL TRAINING

Live hands-on clinical training is scheduled according to the participating doctor's availability, selected programme, clinical experience, learning objectives and availability of suitable clinical cases. Maximum completion period for the applicable programmes: 3 Months. For programmes requiring specific clinical cases or extended clinical exposure, scheduling may be customised according to case allotment, selected modules and clinical training requirements.

ACADEMY & PARTICIPATING DOCTOR SUPPORT TEAM

DEDICATED ACADEMIC GUIDANCE • COUNSELLING • PARTICIPATING DOCTOR SUPPORT

Our support structure is designed around the needs of participating doctors before, during and after their clinical learning journey — from programme selection and counselling to registration, scheduling and academic support.

- **Dr. Divya Tiwari, BDS**
 - Head – Academic Affairs & Course Development
- **Dr. Nishitha Sharma, MDS | BDS**
 - Head – Participating Doctor Counselling & Career Guidance
- **Dr. Siddharth Sharma, BDS**
 - Operations Associate & Participating Doctor Support
- **Dr. Pratima Sharma, BDS**
 - Participating Doctor Counsellor & Academic Support
- **Dr. Vishal Kaushik, BDS**

WHY PARTICIPATING DOCTORS CHOOSE THE ACADEMY

PRACTICAL LEARNING

Learn through real clinical situations, live demonstrations and hands-on exposure.

EXPERT MENTORSHIP

Learn directly from experienced Course Directors and Faculty across multiple clinical disciplines.

CLINICAL CONFIDENCE

Build greater confidence in treatment planning, clinical decision-making and contemporary techniques.

RESEARCH & ACADEMIC EXPOSURE

Develop an evidence-based approach to learning, clinical practice and professional development.

MULTIDISCIPLINARY LEARNING

Explore different areas of modern dentistry within one professional learning environment.

PERSONALISED CLINICAL EXPERIENCE

Training is structured around your selected programme, learning objectives, clinical experience and available cases.

MORE THAN A COURSE

We believe the right clinical training can change the way a doctor approaches dentistry.

Our objective is not simply to complete a programme, but to create a learning experience that stays with you — in your knowledge, your clinical confidence and the way you practise.

LEARN • TRAIN • RESEARCH • INNOVATE • EXCEL

REGISTRATION & CLINICAL TRAINING

A SIMPLE, CLEAR & PROFESSIONAL JOURNEY

REGISTRATION / APPLICATION PROCESS

Submit Application → Application Review → Eligibility & Course Assessment → Counselling & Course Selection → Seat Availability & Batch Confirmation → Fee Payment → Registration Confirmation → Training Schedule & Joining Instructions

COURSE DURATION

Flexible, doctor-centric training schedules are structured around clinical case availability and participant learning objectives. Maximum completion period for applicable programmes: **3 Months**.

READY TO ADVANCE YOUR CLINICAL PRACTICE ?

A PRACTICAL PLACE TO LEARN, TRAIN & GROW

At the Academy, we believe advanced dental education should be practical, clinically relevant and easy to apply. Our focus is simple — give participating doctors the right clinical exposure, expert guidance and confidence to take their practice forward.

From real-patient hands-on training and live demonstrations to case-based learning, mentorship and research-oriented education, every programme is designed to make learning more meaningful and connected to everyday clinical practice.

With experienced Course Directors and Faculty across multiple disciplines, a broad clinical programme portfolio and a learning environment open to national and international dental professionals, the Academy brings together education, clinical practice and professional growth under one platform.

If you are looking to strengthen your skills, learn contemporary techniques or gain greater confidence in clinical decision-making, we invite you to explore the programme that fits your goals.
